It's the dawn of a new day,

a new decade, a lifetime,

A time for exploration

A chance to search for who we are

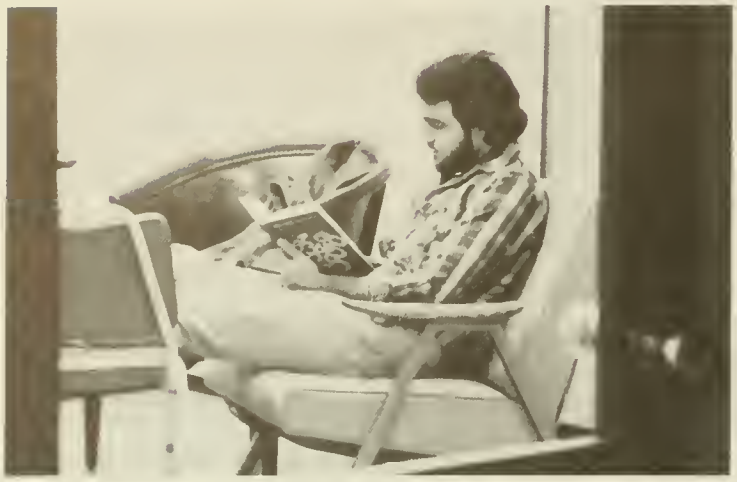

And what we were meant to be

Our time here at Susquehanna is short

Yet its effects on us will last a lifetime

The people we meet

And the experiences we share

The knowledge we amass

All lead to a new dawn

And the dawn of a new decade

DEDICATION

The 1980's are not only a time for looking ahead and planning for the future, but also turning back and reflecting on the past. There is one man, through hard work, patience and understanding, who has become a well respected professor here at Susquehanna. We are proud to dedicate the 1980 LANTHORN to Dr. Kenneth O. Fladmark.

Dr. Fladmark is a professor of Business Administration, and holds a Ph.D. from Pennsylvania State University. He has taught at Susquehanna since 1961, with the exception of his 1978-79 sabbatical. This took him to Italy, Germany and Spain, as a visiting professor of management in the European Division of Troy State University, teaching graduate courses to military personnel in the U.S. Air Force. Dr. Fladmark has also participated in the SU at Oxford program. We can readily see that Dr. Fladmark is one professor at Susquehanna who is actively interested in the furthering of our students' educations.

TWENTY YEARS FROM

THE TWENTY-FIRST CENTURY

We are now but twenty years away from the year 2000. For good reason, the Class of '80 can look to the next decade as a gateway into a troubled, but also, most promising future.

The Cassandras of our time will speak of national decline, institutional retrenchment and a drying up of natural resources. For them, the future is one of trouble with precious little promise. But the accuracy of their prediction is as wrong as that of the 19th Century Washington bureaucrat who recommended that the Patent Office soon be closed since just about everything had been invented. In his myopia, he had overlooked the possibility of antibiotics, transistors, and the airplane.

The Class of '80 will have its opportunities for discovery and service. If it has less oil and fewer appliances than its predecessors, so be it. The real growth in our resources will be in increased intelligence, training, and the commitment to live beyond ones self.

Yours will be the task of achieving more with both less and more —with less material resources, yet with more effort, intelligence, and dedication. Generations which have confronted similar challenges in the past have written amazing histories. So will you. You have the education, the will, and the freedom in a democratic society to succeed.

The "Eighties" are your great threshold. Godspeed.

The staff of the 1980 LANTHORN has tried to portray, in this book, a new beginning, or more importantly, "the dawn of a new decade." The success of this yearbook is due to a number of people, but without the help of Steve, Holly, Barb, Dwight, and Marybeth, it never would have become a reality. These editors, along with the rest of the staff, gave willingly of their time and talents. I wish to express my sincere gratitude to Mr. Putsee Vannucci, Sue Paetzer, and most of all, Mr. George Tamke for their patience, support and guidance. I will always remember the times spent working on this yearbook, and greatly appreciate the hard work and dedication by everyone.
